

Notice: CertiSource will end the provision of the CertiSource Legality Assurance System (CLAS) on 31st December 2020.

Important dates to note: (i) 31 August 2020: last sale of CertiSource logs from certified FMUs, as stated in the SKSHKB; FM certificates revoked.

(ii) The last date of CertiSource export and docket issuance will be extended to 20 Jan 2021 in light of container shortages which have caused shipment delays. Sawmill certification will be revoked thereafter.

Register of CertiSource Verified Legal Batches

31 January 2021

Notes

This register shows information on the certificates issued to exporting mills and details of the batches of timber that have been verified as legal, or is in the process of verification.

To ensure you have the most up-to-date register please visit www.certisource.org or contact Paul Wilson at info@certisource.org

1. CoC certificate no.

Sawmills undergo a comprehensive Chain-of-Custody (CoC) audit every six to twelve months. On successful completion of the audit a CoC certificate is issued with a unique reference number.

3. Batch status

This column indicates the current status of the batch. It will state one of the following:

- In progress (timber is still under processing and shipping)
- Complete (all timber from this batch has been processed and shipped)

5. Total volume of product shipped (m³)

The process of verifying a batch is continuous. The volume in this column indicates the accumulated volume of verified product shipped from the batch.

2. Batch reference no.

Each batch of timber under verification is assigned a unique 4-digit reference number. This will appear on each shipment docket together with the docket reference number.

4. Docket reference no.

Each shipment of verified legal timber product is accompanied by a shipment docket which describes the contents of the container. Each docket has a unique 3-digit reference number beginning with CD. This column states the docket reference numbers issued for each shipment and also indicates the number of containers shipped so far.
